I have the Weather On my side....

Hey by the way, did you love me girl
With words I mumble as she leaves
Ill be OK, as long as you won t be
You don t fumble and you don t grieve

You don t think weather you don t think twice.

G C G C

You re so sober, You only broke me

G C G C

You only broke me, You re so sober

G C G C

You re so sober, You only broke me,

G C G C

You only broke me, you re so sober.

Lay the blame, make it worthy
Sift thru rubble of old debris.
As night fades, day begins.
I m noticing lately that the
Wind sings trouble in the breeze Yah.

I have the weather on my side

You re so sober, you only broke me
You only broke me, you re so sober.
You re so sober, you only broke me.

You only broke me, you re so sober.

Is this over? I m just crazy
I m not crazy you re so sober.

Sober (fade out)
