CAPO 1

VERSE I:

**C**

I still remember

**Em**

All the back and forth

You couldn't stay away

Like a cold wind blows

**F**

You're calling out my name

VERSE II:

**C**

And now it haunts me

**Em**

Softly fading

**F**

Are the memories of your face

**C**

I should have listened

**Em**

When you whispered my name

**F**

**G**

Still you couldn't say

CHORUS:

**C**

Cause you couldn't say goodbye

**G**

Now I cannot ask you why

**F**

-

Although our time is through

No getting over you

**C**

Things will never be the same

I can't even say your name

I know our time is through  
No getting over you

(No getting over you)

VERSE III:

Likes the ashes call your name

Lasting a moment

You're calling out my name
