

Hard To Say
The Used

Title - Hard To Say
Artist - The Used
Album - In Love and Death
Tuning - Standard

NOTE: This is based off a tab by ErickD but I found his layout confusing and personally don't like to have to keep scrolling up to find what notes were used for old verses and then having to place them to the new ones, so, to make it easier for people who are like me, I have made the layout simpler and complete.

Please remember though the tab was created by ErickD and please don't post comments saying this is a copy as I have clearly stated the purpose of this tab.

Thank you!
