

**Meant To Die**  
**The Used**

I really love this song and couldn't find the chords anywhere!

Capo 2.

**Em**

Past midnight,

**Am**

Breathing in the dark.

Same strange friend comes to visit...

**C**

**Cadd9**

Never intend to open the door.

**Em**

You take it to places that no one's ever been,

**Am**

You let it,

You let it.

Your insides caving in.

**C**

**Cadd9**

You pushed and pulled, still wanting some more.

**Am**

This time I've gone all the way,

**Am7**

Without you.

**C**

**Cadd9**

There's nothing more I can say.

**Em**

So maybe I took a little too much.

**C**

Maybe life didn't want this part of me.

**Am**

If it helps to know,

**C**

I never let you go.

**Am**

Sure, I lost my mind.

**Em**

But I never really meant to die.

**Em** Last heartbeat s fading in the night, **Am**

Only expected darkness.

**C** Surprised to wake and follow the light... **Cadd9**

**Em** The second you let it become a part of you,  
**Am** You ll never forget it, no matter what you do.  
**C** You lost it all, still wanting some more. **Cadd9**

**Am** This time I ve gone all the way,  
**Am7** Without you.  
**C** There s nothing more I can say. **Cadd9**

---

**Em** So maybe I took a little too much.  
**C** Maybe life didn t want this part of me.  
**Am** It it helps to know,  
**C** I never let you go.  
**Am** I m sorry that I lost my mind. **Em**

**Em** So baby, I took a little too much.  
**C** Maybe you sucked the life right out of me.  
**Am** I should have let you know,  
**C** I never meant to go.  
**Am** Sure I lost my mind,  
**Em** But I never really meant to die.
