

Together Burning Bright
The Used

Am

Feel the pain wash over me

Am

Feel the salt that s burning from my eyes

G

Feel the world move underneath me

G

Know there is no need for my disguise

Am

Feel the screams as you take my hand

Am

I understand the terror in your eyes

G

Feel I ve lost myself completely

G

I need to know you re right here by my side

C

I won t pretend that we could live forever

G

Em

I think it s gonna be alright, now

G

Em

I think it s gonna be okay

C

Just close your eyes

D

Just we are just sparks

G

But together burning bright

Am

I see the daylight start to fade

Am

I see the cold move softly with the night

G

I feel the darkness stop to take me

G

Now I know there is nowhere to hide

Am

Feel the world start caving in

Am

I feel the hollow nothing left inside

G

No, I ve lost myself completely

G

I need to know you're right here by my side

C

I won't pretend that we could live forever

G

Em

I think it's gonna be alright, now

G

Em

I think it's gonna be okay

C

Just close your eyes

D

Cause we are only sparks

G

But together burning bright

G

Em

I think it's gonna be alright, now

G

Em

I think it's gonna be okay

C

Just close your eyes

D

Cause we are only sparks

G

But together burning bright

C

Yeah together burning bright

D

We are only sparks

G

But together burning bright
