Intro/Verse

Play D and dsus2 like so
to fit in with existing intros.

```
|--2-2--0--2-2--|  
|--3-3--3--3-3--|  
|--2-2--2--2-2--|
```

Chorus

```
G                A                Bm                A  
Now all those feelings, those yesterdays feelings  
G                A                Bm  
will all be lost in time.  
G    A    Bm    A    G    A    Bm  
but today ive wasted away for today is on my mind...
```

bridge

(I can t get a worry...)
the chord throughout is F, recommend playing the basic
shape for a higher sound. then end the bridge with D.

```
| -1 - |  
| -1 - |  
| -2 - |  
| -3 - |  
| -0 - |  
| -0 - |
```

also

play in the background of the bridge

```
B---5-6-8---| x 8
```

Song ends on D.

So it goes:

Intro

Chorus

That s it. Oh yeah, you have to can add in the intro that someone else tabbed
and play

it throughout the song to get a fuller sound. Any major issues or minor tiffs,
