(Gun Fever) Blam Blam Fever - The Valentines

Tabbed by: Bumcivilian

Play the chords for 4 beats each. Use barre chords (F at fret 8), and play them in reggae style on the off-beat.

I m not sure about all of the lyrics, so if you think they re wrong then they probably are.

Listen to the song to get any of the rhythm or timing. The chords positions over the lyrics

are general, listen to the song and it s easy to fit them in.
