

Be With You
The Vamps

G **D**
Hey lover, I m questioning our love song

Em **C**
How did we get the words wrong?

G **D**
Hey lover, the key s in the ignition

Em **C**
But nothing s in the engine

Em
And just what I m about to say

C
I m sick of you, so go away

G **D**
You do that little thing you always do

And then I know

G
I only wanna, I only wanna

D **Em** **C**
I gotta gotta, I gotta be with you

G
I only wanna, I only wanna

D **Em** **C**
I gotta gotta, I gotta be with you

G **D**
Hey lover, I m screaming on the inside

Em **C**
I m running but I can t hide

G **D**
Hey lover, with everything we ve been through

Em **C**
A fool would only doubt you and I doubt you

Em
And just what I m about to say

C
It s time to throw it all away

G **D**
You look at me the way only you can do

And then I know

G
I only wanna, I only wanna

D **Em C**

I gotta gotta, I gotta be with you

G

I only wanna, I only wanna

D **Em C**

I gotta gotta, I gotta be with you

G

I wanna be with you when the love is right

D

I wanna be with you even when we fight

Em C

I wanna be with you til the day we die

G

I wanna be with you when the love is right

D

I wanna be with you even when we fight

Em C

I wanna be with you til the day we die

Em

And just what I m about to say

C

It s time to throw it all away

G

D

You look at me the way only you can do

G

I only wanna, I only wanna

D **Em C**

I gotta gotta, I gotta be with you

G

I only wanna, I only wanna

D **Em C**

I gotta gotta, I gotta be with you

G

I only wanna, I only wanna

D **Em C**

I gotta gotta, I gotta be with you

G

I only wanna, I only wanna

D **Em C**

I gotta gotta, I gotta be with you
