

Burn
The Vamps

D **A**
I need big dreams in city streets and bright lights
F#m **E**
Cause this seems to make me feel alright
D
And I want this one and I can take
A **F#m** **E**
And I can feel myself from the brick about to break

D **E**
And I be lost and alone
F#m **D**
And I m scared to find my own
E **F#m** **E** **D**
I need hope or control but something s pulling me in

A
It needs to hurt so we could work
F#m
And I need fire, so I can burn
E
And I need love, so I can learn
D **A**
I m just a boy with the world
F#m
At my feet to find a girl
E **D**
Telling me to not get hurt, telling me but I won t learn
A
Cause I want you and nothing can stop this
F#m **E**
So let s sit and watch this burn
D **A**
And as it ends up in ashes, we sit and laugh, yeah
F#m **E**
We sit and watch this burn

D **A**
I need your heart in both hand in my plans
F#m **E**
Are to make you feel alright

*(**D A F#m E**)*
 When the world gets quiet, I ll scream your name

 When your lungs get tired, the air will breath the same

 Don t forget me, let me ease your pain

 And every heart in breaking, don t let it slip away

D **A**
 It needs to hurt so we could work
F#m
 And I need fire, so I can burn
