

Burn
The Vamps

C **G**
I need big dreams in city streets and bright lights
Em **D**
Cause this seems to make me feel alright
C
And I want this one and I can take
G **Em** **D**
And I can feel myself from the brick about to break

C **D**
And I be lost and alone
Em **C**
And I m scared to find my own
D **Em** **D** **C**
I need hope or control but something s pulling me in

G
It needs to hurt so we could work
Em
And I need fire, so I can burn
D
And I need love, so I can learn
C **G**
I m just a boy with the world
Em
At my feet to find a girl
D **C**
Telling me to not get hurt, telling me but I won t learn
G
Cause I want you and nothing can stop this
Em **D**
So let s sit and watch this burn
C **G**
And as it ends up in ashes, we sit and laugh, yeah
Em **D**
We sit and watch this burn

C **G**
I need your heart in both hand in my plans
Em **D**
Are to make you feel alright

Parada

*(**C G Em D**)*
 When the world gets quiet, I ll scream your name

 When your lungs get tired, the air will breath the same

 Don t forget me, let me ease your pain

 And every heart in breaking, don t let it slip away

C **G**
 It needs to hurt so we could work
 Em
 And I need fire, so I can burn
 D
 And I need love, so I can learn
C **G**
 I m just a boy with the world
 Em
 At my feet to find a girl

Telling me to not get hurt, telling me but I won't learn

Cause I want you and nothing can stop this

So let's sit and watch this burn

And as it ends up in ashes, we sit and laugh, yeah

We sit and watch this burn

And I won't learn

Cause I want you and nothing can stop this

So let's sit and watch this burn

And as it ends up in ashes, we sit and laugh, yeah

We sit and watch this burn
