

Burn
The Vamps

E **B**
I need big dreams in city streets and bright lights
G#m **F#**
Cause this seems to make me feel alright
E
And I want this one and I can take
B **G#m** **F#**
And I can feel myself from the brick about to break
E **F#**
And I be lost and alone
G#m **E**
And I m scared to find my own
F# **G#m** **F#** **E**
I need hope or control but something s pulling me in
B
It needs to hurt so we could work
G#m
And I need fire, so I can burn
F#
And I need love, so I can learn
E **B**
I m just a boy with the world
G#m
At my feet to find a girl
F# **E**
Telling me to not get hurt, telling me but I won t learn
B
Cause I want you and nothing can stop this
G#m **F#**
So let s sit and watch this burn
E **B**
And as it ends up in ashes, we sit and laugh, yeah
G#m **F#**
We sit and watch this burn
E **B**
I need your heart in both hand in my plans
G#m **F#**

Parada

*(**E B G#m F#**)*

When the world gets quiet, I ll scream your name
When your lungs get tired, the air will breath the same
Don t forget me, let me ease your pain
And every heart in breaking, don t let it slip away

E **B**
It needs to hurt so we could work
G#m
And I need fire, so I can burn
F#
And I need love, so I can learn
E **B**
I m just a boy with the world
