Am

Can t take my eyes off

```
Fall
The Vamps
Didn t know you were ready, ready for it all
Never said that you d get me, you never let me know
If I knew then what I know
Now you see that you re ready, now you wanna go
But darling, please don t tempt me
I ve gotta take control
Turn the lights way down low
Am
Can t take my eyes off
Can t take my hands off you
         Αm
For the first time
      C
Just fall
Our hearts are racing
Fall
                     Αm
Why did we wait so long?
We just fall
F C
Hold on, hold on, hold on
F C
  The night we met under starlight, after the storm
And knew that we would be alright
Your skin feels soft and warm
Now let s go round one more time
