Fall
The Vamps

C#
Didn t know you were ready, ready for it all
F#   **Bbm**
Never said that you d get me, you never let me know
              F#
If I knew then what I know

C#
Now you see that you re ready, now you wanna go
F#
But darling, please don t tempt me
                         Bbm
I ve gotta take control
          F#   **C#**
Turn the lights way down low

Bbm
Can t take my eyes off
F#   **C#**   **G#**
Can t take my hands off you

        Bbm   **G#**
For the first time
        C#
Just fall
                       F#
Our hearts are racing
C#
Fall
                   F#   **Bbm**
Why did we wait so long?

We just fall
F# C#
Hold on, hold on, hold on

F# C#
  The night we met under starlight, after the storm
F#
And knew that we would be alright
                            Bbm
Your skin feels soft and warm
           F#   **C#**
Now let s go round one more time

Bbm
Can t take my eyes off

```
F#                               C#      G#
Can t take my hands off you

           Bbm      G#
For the first time
       C#
Just fall
                        F#
Our hearts are racing

Hold on, hold on, hold on

F#  C#
  You say you re ready, ready to go
F#                              Bbm
I say I m ready, why don t we just fall?
F#  C#
  You say you re ready, ready to go
F#                              Bbm

Our hearts are racing
C#

                    F#    Bbm
Why did we wait so long?

We just fall
F# C#
Hold on, hold on, hold on

Just fall
                        F#
Our hearts are racing
