I m just sick of staying up losing sleep, who gives a fuck?

Bm G  
Don t you? Don t you?

Lie in bed sometimes at night and miss looking into my eyes

Bm  
Shivering to my bones

Someone reset my soul, oh, oh

D A  
And I don t wanna be locked out

Bm  
I don t wanna feel this doubt

G  
I just wanna scream and shout

D A  
I ll go out, grow my hair too long

G  
Sing your least favourite song

G  
At the top of my lungs (oh, oh, oh)

D A  
I ll go out, kiss all of your friends

G  
Make a story and pretend

G  
It was me who made this end

D  
Let me take a second to sympathise cause you re right

I m away too much, I think too much, I drink too much

But it s only a matter of time before we catch up
