

Million Words

The Vamps

E

All the times that it slipped out my dimension

B

That you're the one I need and if I forgot to tell you

C#m

I was wrong to ever doubt it and you're all I think about, yeah

A

There's a million words I shoulda said

E

I remember you were standing in my doorway

B

And the words were on my lips, that you never looked so beautiful

C#m

Oh just to be near you, don't you know how good that feels?

A

G#m

These are all the things I should've said

F#m

G#m

A

Did I miss my chance? Is it too late to say?

[Refrão]

E

Now I'm half a world away from you

B

But you're always on my mind

C#m

There's a million words that I could've said

A

That you might still be mine

E

And if there's someone where I used to be

B

I hope he tells you every day

C#m

The million words that I should've said

A

E

I wish I could tell you, always

E

When you were mine, did I push you far away?

B

Blamed this whole weight on my shoulders bearing down on me

C#m

But then I only had to see you, don't you know how good that feels?

A

G#m

These are all the words I should've sent

F#m

A

Did I miss my chance? Is it too late to say?

[Refrão]

E

And if I could only catch your eye and throw a smile

B

C#m

Maybe I could stop to say what's screaming in my mind

A

You should know that what I want to say could take all night

G#m

Or my whole life

F#m

G#m

Do I get a second chance to make you mine tonight?

E

Now I'm half a world away from you

B

But you're always on my mind

C#m

There's a million words that I could've said

A

That you might still be mine

E

And if I ever get the chance again

B

I would tell you every day

C#m

With the million words that I should've said

A

E

I wish I could tell you, always

B

C#m

Always, always

A

E

Always, always
