Intro: **G   D   Em   C**

G   **D**
I, I don t wanna say goodnight
                              Em
But I know if I come inside
                  C   **G**
That I d be playing with your heart and with your mind
                              D
Something that I always do
                  Em   **C**
But if I tell you from the get-go, I can let go
                              G
And I ll leave it up to you

(**G   D   Em   C**)

Em   **C**   **D**
So open up the door
              G   **Em**

C   **G**   **Em**   **D**
  And I will take you there if you let me take you
C   **G**   ***D**   **D**
 To places that you ve never been, never been before
C   **G**   **Em**   **D**
 And I love that dress you wear, but it s whatever
C   **G**   ***D**   **D**   **C**
 Cause I think that it would look much better on the floor, on the floor

G   **D**
Don t call me 20 times a day,
                              Em
Running out of things to say
              C   **G**
Let s not get too obsessed to keep it fresh that way
                          D   **Em**
It s something you should always do, it s still romantic
                          C   **G**
Less dramatic, but it don t mean I m not fanatic about you

(**G   D   Em   C**)
