Sad Song
The Vamps

[Intro] **G   Am   Em7   D**
         G   Am   Em7   D

           G   Am   **Em7 D**
So many nights, so many days
                 G   Am   **Em7   D**
To all of the fights, cause I never behave
                     G   Am   **Em7   D**
And I m putting it right, hope it isn t too late
         G   **Am**   **Em7**   **D**
And I know, you know, I know we can t let it end this way

               G   **Am**
Though I stopped calling you
               Em7   **D**
And I stopped taking your messages
               G   **Am**
Never stopped loving you
             Em7   **D**
And the one thing I regret is
           G   **Am**
I stopped calling you
               Em7   **D**
And I stopped taking your messages
               G   **Am**
Never stopped loving you
                     Em7   **D**
Though you re still running through my head

     G   **Am**
So hold on, baby
Em7   **D**
Know you drive me crazy
         G   **Am**
It s a sad song really
Em7   **D**
Shit, you made me happy, oh
G   **Am**
Ain t always cool
Em7   **D**
But it s alright
             G   **Am**
It s not a sad song really
Em7   **D**   **G   Am**
Shit, you made me happy
Em7   **D**   **G   Am   Em7   D**
Shit, you made me happy

```
            G   Am                          Em7   D
So many nights, we re staying up late
                    G   Am                  Em7   D
Scratches and bites, you screamin  my name
                      G   Am                Em7   D
Is he loving you right, or am I too late
            G                   Am                  Em7          D
 Cause I know, you know, I know we can t let it end this way

                    G           Am
Though I stopped calling you
                Em7                 D
And I stopped taking your messages
                    G           Am
Never stopped loving you
                    Em7                     D
Girl you re still running through my head

   G           Am
