:^D

C **G**
I once had a girlfriend
Am **Em**
But then one day she dumped me
F **G** **C**
And everywhere I go people would ask me where she was
F **G**
I don t want to talk about her
F **G**
Someone always asks about her
F **G** **C**
So I tell them all: my girlfriend s dead
C **G** **Am** **Em**
I say it s leukemia or sometimes bulimia
F **G** **C**
Or a great big truck ran her over and chopped off her head
F **G**
I don t want to talk about her
F **G**
But someone always asks about her
F **G** **C**
So I tell them all: she s dead
C **G**
I guess there s a part of me
Am **Em**
That lacks sympathy
F **G**
Oh, the looks on their faces when I tell them
C
How she passed away
F **G**
I don t want to talk about her
F **G**
But someone always asks about her
F **G** **C**
So I tell them all shes dead
Am **F**
My girlfriend s dead , you see
G **C**
It s a total lie but it s easier on me
F **G** **C**
Than having to admit that she likes someone else
Am **F**

My girlfriend s dead , you know

G **C**

Please change the subject, I m going to go

F **G** **C**

Jump off a building and join her in heaven

F **G**

I don t want to talk about her

F **G**

But someone always asks about her

F **G** **C**

So I tell them all: she s dead

C **G**
