

**Will You Love Me**  
**The Vespers**

[The chords for this song are insanely simple... they basically just repeat. And repeat. And repeat. Just listen to the song to get a feel for how they go.]

**D** **G D**  
When I woke up this morning  
Bluebirds were singing your name  
All the flowers were blooming  
All the new leaves were green

**D** **G D**  
How I love you in the sunshine  
How I love you in the shade  
How I love you all the time  
My love for you will never fade

**C** **Bm**  
But when I do you wrong  
It pushes me away  
It always takes so long  
For me to stop asking

**D**  
Will you love me  
Will you want me  
Will you love me  
Will you want me

**D** **G D** **G D**  
Still

**D** **G D**  
How I love you in the morning  
How I love you at night  
But how much more do you love me  
When I can't fight my own fight

**C** **Bm**  
And when I do you wrong  
Sin pushes me away  
It always takes so long  
For me to stop asking

**D**  
Will you love me  
Will you want me  
Will you love me  
Will you want me [~5x]

**D**

Still
