## Bunker The View (Chorus) I ll stay with you cause I know how To keep my feet on solid ground milk turns sour when left on the bunker for days (Verse) I know that you re about to hit the 22. That s old enough to know who s coming on to you You re complacent with strangers. And everyone that falls by the way I see your tangerines are fading into black You d rather lie out front with him and leave me in the back But you re still Rosie from door 6 And tainted smiles they get me everytime
