

**The Best Last Forever  
The View**

This song is pretty easy to play :)

its just 4 basic chords

Intro

**C Am G F**

**C** **Am**  
I feel like a sun without a sky  
**G**  
Feel like a socket without an eye  
**F**  
Feel like a house, but not a home  
  
Just a dog without a bone

How can you wink without an eye?  
Like a grievance, but with no cry  
A house, not a home, and I don t know why  
Just a pig without a sty

**C** **G** **Am** **F**  
The best lasts foreverâ€|.Ohh

Feel like a sail, but I ve been slashed  
A vigilante that s been unmasked  
Feel like a raft, but not a ship  
Sinking on this south facing tip

**C** **G**  
I know that before when you answered the door  
**Am** **F**  
I told you and the world to leave me

But the best lasts foreverâ€|.Ohh  
Together again, together again

Have you ever felt like a story untold  
A catwalk model that s growing old  
Hard to imagine what s more important  
The rainbow the pot or the gold

I know that before when you answered the door  
I told you and the world to leave me

Thinking about what it is that made you change  
Was it the quarks, the dosh or the dames  
When did I become so deranged  
And think of the time when blood ran through your veins  
When she looked as sweet as a candy cane  
As she looks through the window pane  
Through the window, pain and the rain  
I say it again and again  
The best lasts forever  
The best lasts forever

The best lasts foreverâ€|.Ohh

I know that before when you answered the door  
I told you and the world to leave me

I ve been on my knees on so many streets  
Not just the ones in Dundee  
Fell on my face, been a legless disgrace  
Ten thousand laughing at me, but still

The best lasts foreverâ€|.Ohh
