

**The Best Last Forever
The View**

This song is pretty easy to play :)

its just 4 basic chords

Intro

C Am G F

C I feel like a sun without a sky
Am
G Feel like a socket without an eye
F Feel like a house, but not a home
Just a dog without a bone

How can you wink without an eye?
Like a grievance, but with no cry
A house, not a home, and I don t know why
Just a pig without a sty

C The best lasts foreverâ€|.Ohh
G **Am** **F**

Feel like a sail, but I ve been slashed
A vigilante that s been unmasked
Feel like a raft, but not a ship
Sinking on this south facing tip

C I know that before when you answered the door
G
Am I told you and the world to leave me
F

But the best lasts foreverâ€|.Ohh
Together again, together again

Have you ever felt like a story untold
A catwalk model that s growing old
Hard to imagine what s more important
The rainbow the pot or the gold

I know that before when you answered the door
I told you and the world to leave me

Thinking about what it is that made you change
Was it the quarks, the dosh or the dames
When did I become so deranged
And think of the time when blood ran through your veins
When she looked as sweet as a candy cane
As she looks through the window pane
Through the window, pain and the rain
I say it again and again
The best lasts forever
The best lasts forever

The best lasts foreverâ€|.Ohh

I know that before when you answered the door
I told you and the world to leave me

I ve been on my knees on so many streets
Not just the ones in Dundee
Fell on my face, been a legless disgrace
Ten thousand laughing at me, but still

The best lasts foreverâ€|.Ohh
