

Ghost Train Out
The Vincent Black Shadow

Okay, so there were barely any Vincent Black Shadow tabs and 0 chords, and found it ridiculous because I find them amazing, so I decided to mess around with it a little. I KNOW its not accurate, but it sounds good when you play it. Who cares how accurate it really is, change it up, make your own cover, enjoy!

C-Am-F-G

(Just repeat the entire song except for bridge)

Pack your bags and leave tonight
Can t you see
That there s something not quite right
My doors are locked tonight

You wana run?
I thought you might

There s a train that stops for no-one
There s a train that leaves tonight

And I said
Maybe baby, baby
Come on
Come on
You ll be alright

And I said
Maybe you can do
No wrong
Come on
You ll be alright

Please don t look at me that way
If I could
I would leave so you could stay
I live without your face
It s drawn in flesh
It s drawn in haste

He s the one that looked just like you
He s the one who ll take your place

And I said
Maybe baby, baby
Come on
Come on
You ll be alright

And I said
Maybe you can do
No wrong
Come on
You ll be alright

C
Just remember
You ll be alright

Am
Just remember
You re safe tonight

F
Just remember

G

There was no choice

C Am F G

For you

And I said
Maybe baby, baby
Come on
Come on
You ll be alright

And I said
Maybe you can do
No wrong
Come on
You ll be alright

Hope it somewhat helped
