

How Many Miles
The Waifs

Verse 1

Ab **Db** **Ab**
It was way after midnight, before you crossed my mind
Db
But I thought of you til the sun broke through and I watched that road
Eb
unwind
Ab **Db** **Ab**
Funny how that road, was just like the trail we made
Db **Eb** **Ab**
Every little twist and turn and bump left me feeling worn and frayed

Chorus

Db **Ab**
How many miles did we wander
Db **Ab**
How many nights did we drive on through
Db **Ab**
Travelled the road like rolling thunder
Db **Eb** **Ab**
And none of them lead to anywhere that we wanted them to

Verse 2

But it wasn't always rough - there was some smooth travelling too
And when the sun came up I was high on a mountain in the morning new
You always told me if I opened my eyes, I would see forever
Maybe I did, maybe that's how I knew that we were never destined to be together
[Chorus]

Verse 3

Sometimes hurting someone is the kindest thing that a person can do
What more can I say, I'm sorry if I caused your heart to bleed
You were always so kind and gentle and warm and I tried so hard to be that way
in return
But you never asked me what I wanted, you just told me what you thought I need
[Chorus]
