

Pony
The Waifs

Key **G**

The song mainly consists of riffs in the Gm pentatonic scale. For riff, start at root note G and go straight to D and you will pick up the riff pretty easy. Or here are the chords to strum along to:

Verse 1

G
The sky was grey and the sea was green
and you re eyes were a colour that had never been seen
I got lost somewhere out in between
Bb **C** **G**
where I was and where you wanted me to be

Chorus

G
Gonna get on my pony and ride
Gonna get on my high horse and fly
Gonna get on my pony and ride
Gonna get on my high horse and fly

Verse 2

G
The stars come and the sun went down
and the night got dark, it was all around
I got lost somewhere, never to be found
Bb **C** **G**
Somewhere out on the wild and rolling sea [Chorus]

SOLO - strum G

Repeat Verse 1 and Chorus
