

Not Alone  
The Wailin' Jennys

[Intro]

D A D A D

[Verse]

          D                  A                  D  
She sees him laying in the bed alone tonight  
          D                  A                  G          D  
The only thing touching him is a crack of light  
                          D  
Pieces of her hair are wrapped  
                  A                  G  
Around and around his fingers  
          Em                  D  
And he reaches for her side  
          G                  A  
For any sign of her that lingers

[Chorus]

          Em                  G  
She says, you are not alone  
          D  
Laying in the light  
          Em                  G  
Put out the fire in your head  
          D  
And lay with me tonight

D A D  
Oooohh

[Verse]

          D                  A                  Em          D  
One of them bullets went straight for the jugular vein  
          D                  Em  
There were people running, a flash of light  
          D  
Then everything changed  
          D  
Nothing really matters  
          A                  G  
In the end, you know, all the worries sever  
          G                  D  
Don t be afraid for me, my friend  
          G                  A  
One day we all fall down forever

[Chorus]

**Em** **G**  
And you are not alone  
**D**  
Laying in the light  
**Em** **G**  
Put out the fire in your head  
**D**  
And lay with me tonight

**D** **A**  
Her wedding day was June  
**Em** **D**  
Just like any other bride  
**D** **A**  
She loved him like no one before  
**Em** **D**  
It was good to be alive  
**D** **A**  
Sometimes that can slip away as fast  
**Em**  
As any fingers through your hands  
**G** **D**  
So you let time forgive the past  
**G** **A**  
And go and make some other plans

[Chorus]

**G**  
And you are not alone  
**D**  
Laying in the light  
**Em** **G**  
Put out the fire in your head  
**D**  
And lay with me tonight

**D** **Em** **G**  
You are not alone  
**D**  
Laying in the light  
**Em** **G**  
Put out the fire in your head  
**D**  
And lay with me tonight
