Just Say Goodbye

Just say goodbye and let me walk away,
There s nothing more to say when love like ours can die
Just say goodbye, forget the life we knew,
The memory of you, will only make me cry

Just say goodbye, to leave me on my own,
To face the world alone and never knowing why-y
Just say goodbye, and though I don t know how,
I couldn t hate you now, no matter how I tried

Just say goodbye, it s sad that you must go,
you loved me once I know, this much I can t deny

Oh my love, my own true love,
Oh where did we go wrong
Oh my love, my own true love,
oh how can I go on?

Just say goodbye, it s sad that you must go...

Just say goodbye and please don t turn around
Another love you ve found now spread your wings and fly
Just say goodbye.... just say goodbye.... just say goodbye..
