Saddest Night In The World

E A B7 E A D B
On the saddest night in the world, I lost my way, I lost a girl
A B7 E A D B
And the rain came down in the streets blinding the way, I wait for days
F# B E C#
All night long I ve been wondering how I ll carry on
F# B E C#7 D E
Without you all the things that ever mattered all fell through

On the saddest night in the world, shop window girls, smiled through the rain
And the wet, grey figure called me looks for a man he used to be
Out of love, you ve been running with you head held high
I said that it wouldn t matter, now without you I wanna die

D G
And the rain-drenched old lady selling flowers in the street
D
Knows you re gone...
