

Saturdays Child
The Walker Brothers

Saturday s Child

C
Don t stop, don t turn around
F
It s just lonely clown who keeps calling
C
But you ve grown quite out of love with him

C
The city s endless nights
F
The in-crowd gay young faces have been washed away
C
By too many through the night and day

Chorus:
G7 **C**
Saturday s child who used to say
G7 **C**
That she could dance the world away
Bb **C**
Saturday s child just hangs her head and cries today

How could you be so blind?
Just waking up to find
What a fool you were, cause you let him break your heart

You turn, you break, you bend
You re left without a friend
When you seemed to have so many at the start

Chorus (repeat and fade)
