

Saturdays Child
The Walker Brothers

Saturday s Child

D
Don t stop, don t turn around

G
It s just lonely clown who keeps calling

D
But you ve grown quite out of love with him

D
The city s endless nights

G
The in-crowd gay young faces have been washed away

D
By too many through the night and day

Chorus:

A7 **D**
Saturday s child who used to say

A7 **D**
That she could dance the world away

C **D**
Saturday s child just hangs her head and cries today

How could you be so blind?
Just waking up to find
What a fool you were, cause you let him break your heart

You turn, you break, you bend
You re left without a friend
When you seemed to have so many at the start

Chorus (repeat and fade)
