Turn Out The Moon

**A** **D**  
When there s no place you can turn to  
**A** **D** **E**  
And your pride is a burden you bear  
**A** **D**  
A beginning with no ending  
**A** **D** **E** **D** **G**  
Time is dying and nobody cares, nobody dares

Chorus:

**C** **Em** **F** **G**  
Turn out the moon and the stars in the sky  
**G6** **C** **Em**  
Cause it is ended too soon  
**F** **G** **C** **Am** **E**  
I m through living a lie, without you

Happy people in black steeples  
Make me need you a little bit more  
Starless mornings find me older  
Waiting for you to walk through that door, just like before

Chorus

**E** **D** **D6**  
The torch is dying, I ve carried it for too long, baby  
**E** **D** **D6** **G** **E** **D** **C**  
I ll tear you from me, anyway I have too, baby

Chorus +:

(Turn out the moon, and the stars in the sky)  
Gotta turn out the moon  
(Turn out the moon, and the stars in the sky)  
I tell ya baby, itâ€™s ended, it ended way too soon
