

Turn Out The Moon
The Walker Brothers

Turn Out The Moon

Bb **Eb**
When there s no place you can turn to
Bb **Eb** **F**
And your pride is a burden you bear
Bb **Eb**
A beginning with no ending
Bb **Eb** **F** **Eb** **G#**
Time is dying and nobody cares, nobody dares

Chorus:

C# **Fm** **F#** **G#**
Turn out the moon and the stars in the sky
G#6 **C#** **Fm**
Cause it is ended too soon
F# **G#** **C#** **Bbm** **F**
I m through living a lie, without you

Happy people in black steeples
Make me need you a little bit more
Starless mornings find me older
Waiting for you to walk through that door, just like before

Chorus

F **Eb** **Eb6**
The torch is dying, I ve carried it for too long, baby
F **Eb** **Eb6** **G#** **F** **Eb** **C#**
I ll tear you from me, anyway I have too, baby

Chorus +:

(Turn out the moon, and the stars in the sky)
Gotta turn out the moon
(Turn out the moon, and the stars in the sky)
I tell ya baby, itâ€™s ended, it ended way too soon
