

Turn Out The Moon
The Walker Brothers

Turn Out The Moon

B **E**
When there s no place you can turn to
B **E** **F#**
And your pride is a burden you bear
B **E**
A beginning with no ending
B **E** **F#** **E** **A**
Time is dying and nobody cares, nobody dares

Chorus:

D **F#m** **G** **A**
Turn out the moon and the stars in the sky
A6 **D** **F#m**
Cause it is ended too soon
G **A** **D** **Bm** **F#**
I m through living a lie, without you

Happy people in black steeples
Make me need you a little bit more
Starless mornings find me older
Waiting for you to walk through that door, just like before

Chorus

F# **E** **E6**
The torch is dying, I ve carried it for too long, baby
F# **E** **E6** **A** **F#** **E** **D**
I ll tear you from me, anyway I have too, baby

Chorus +:

(Turn out the moon, and the stars in the sky)
Gotta turn out the moon
(Turn out the moon, and the stars in the sky)
I tell ya baby, itâ€™s ended, it ended way too soon
