The altitude is now
Getting to me
As they applaud you
On the boulevard
The whole valley looks like
Someone s body
All the people look like
Little scars
This day is taking
Forever
I will never say
Never say never again
The flesh around me
Is only pretend

Fm

I am sure

G#

That I am a building

Bb

Cm

Here without doors

Fire blazing

On the overpass

Cattle grazing

In fields of dead grass

Last summer was earthquake weather

By November

This too should have passed

I am not moving

I am landlocked

I am looking through

A thousand windows spread across

A thousand floors

There in a landfill

Where Eden was before

But not anymore

I **Bbm Bb** building

Here without doors

Eb

G#

Did you see me waving to you from above

Things are looking clear now

Eb

G#

My eyes are wide enough to see the way a sniper does

Behind the barrel of a good gun

the uh huh s use the same chords aa verse

For worse or better

I surrender

It may not matter

But I m sadder than you ll ever know

I am your inferno

Here all in yellow

With embers blowing north

No sense in returning

I m not worried anymore

I **Bbm Bb** building

That is here without doors

I **Bbm Bb** building

That is here without doors
