Mine is a sunshine kind of a valentine
Sometimes I don t feel even worth a dime
Now it Used to be different
                           Am
                                  /G
before i been where i ve been
Am
oooh
You ve got a heart so you know how it feels
When you can t move at the top, of the ferris wheel
Now I used to keep trying
But it always felt like dying
Oooh
(chorus)
Sad, sad
                    Am
Everything has gone bad
When the dreams i ve had
                      C
they all laughed at what i had
G
Oh no
                    Am
Tell me that it ain t true
When I awake i m still me
When I wish i could once be you
I used to feel lucky
```

Until i spent some time with me Oooh

Now if losing is amusing man get a load of me You seen me falling in love with the gullotine I used to be funny To think you would think of me Ooooh

But i m falling down in the wheels of this machine
But i used to be something
To be nowhere with nothing
