

Weakness

The Wanted

Hey i wanted to play the song but i didn t find any chords for this one, so i started to play with the piano and i came up with this which i think is really close if not the actual chords, so here it is.

Dm **G**
She aims a smile with the safety off
Em **Am**
And she s not afraid to use it
Dm **G**
She holds my gaze just long enough
Em **Am**
For me to feel like I m gonna lose it

Dm **G**
And I know that she knows
Em **Am**
That I know what she s doing to me
Dm **G**
And she knows when she calls
Em **Am**
I ll fall for her every time

F **G**
Cos I m wrapped I m wrapped around
Em **Am**
Your perfect little finger
F **Am**
And I m trapped inside the cell
Em **Am**
Of every sound she makes
F G Em Am
She is my weakness
F G Em Am
She is my weakness

(SAME HERE)

A look from her is like oxygen
How would I keep breathing
Without her
She breaks a whole as she looks away
Now my heart ain t beating
Without her

And I know that she knows

That I know what she s doing to me
And she knows when she goes
I ll come for her every time

Cos I m wrapped I m wrapped around
Your perfect little finger
And I m trapped inside the cell
Of every sound she makes
She is my weakness
She is my weakness

F **G**
I know it might sound crazy

Em **Am**
But I don t wanna let go

F **G** **Em** **Am**
Now I don t mind spending every night if you don t let go

Cos I m wrapped I m wrapped around
Your perfect little finger
And I m trapped inside the cell
Of every sound she makes
She is my weakness
She is my weakness
