

**Destinies Entwined**  
**The Waterboys**

*Intro:*

**Am**  
Her point of view was radical, more than just a change of plan  
**Am** **F** **Dm**  
She sold me her proposal which I did not understand  
**Am** **C** **F**  
**G** **C** **F**  
She said the secrets in the road, I tried to decode the signs  
**Am** **G**  
And followed her for seven years, all eyes and ears  
**F** **Dm** **E** **Am** **G F G**  
Our destinies entwined... our destinies entwined

**Am** **F** **Dm**  
The new land lay like Eden underneath my hungry feet  
**Am** **C** **F**  
Its trees were tall, its people all so noble in defeat  
**G** **C** **F**  
Men were digging, men were building, men were killing time  
**Am** **G**  
I took a spade and volunteered, a pioneer  
**F** **Dm** **E** **Am** **G F G**  
Our destinies entwined... our destinies entwined

**Am** **F** **Dm**  
I made a stand on principle but I had not grasped the facts  
**Am** **C** **F**  
One folly breeds another, I made all the wrong contacts  
**G** **C** **F**  
I fell in with strange company for their armour it did shine  
**Am** **G**  
I took the only path I knew, they took it too  
**F** **Dm** **E** **Am** **G F G**  
Our destinies entwined... our destinies entwined

**Am** **F** **Dm**  
While all men shouted black is white, and swore that good is ill  
**Am** **C** **F**  
I saw three crosses pierce the sky above a distant hill  
**G** **C** **F**  
The sky burned red as I turned my head and I left that scene behind  
**Am** **G**  
I took another god to be my guide, the one inside  
**F** **Dm** **E** **Am** **G F G**  
Our destinies entwined... our destinies entwined

**Am** **F** **Dm**  
I lay in bed and as I stumbled from the vale of sleep  
**Am** **C** **F**  
Across the theatre of my mind a passing thought did creep  
**G** **C** **F**  
That love is all and all is love, love infinitely kind  
**Am** **G**  
I woke and glimpsed through prison bars a billion stars  
**F** **Dm** **E** **Am** **G F G**  
Our destinies entwined... our destinies entwined
