The Weeknd

Am

They say my brain meltin , and the only thing I ll tell em

C

Is I m livin for the present and the future don t exist

G

So baby take your clothes off, a chance like this

You may never get to show off, show off

Am

Show off what you talking about

C

Unless you like to tease, baby

When in reality you don t know how to please, baby

G

Blue-ball queen, take your fucking seat, baby

Am

Ride it out, now I know you wanna scream, baby

C

Better than your next man

G

And if he swingin I get dumber than the next man

Cause I don t play

Am

Unless it s keys then I play all day

C

You like them keys? We gon play all day

Wet dream for your brain all day

G

All day

I think you lost your morals, girl

But it s okay

Cause you don t need em where we re going

Am

In that two-floor loft in the middle of the city

(Pause)

After rolling through the city with me

Am

I promise you gon see

C

That I m only fucking 20, girl

G

Amnesia, put your mind in a dream world

What you doing in the bathroom?

Am

I hear noises in the bathroom

C

Baby, it s okay

G

We can do it in the living room

Twisting turns in em, the only girls that we fuck with

A

Seem to have 20 different pills in em

They tell us that they love us

C

Even though they want a next man

G

And the next man s bitch want the third man

Eddie Murphy shit

Yeah, we trade places

Am

Rehearse lines to them and then we fuck faces

C

Yeah we know just how to get a buzz

G

Mix it with the hash, come fuck with us

I m raw, motherfucker, I m raw

My love so lost in my niggas, man

Am

These bitches can t touch what we got if they wanted

C

I ll plug any nigga that ll step

G

Man, I got em, yeah I got em

Till the ending of our credits

Life s such a movie, filmed independent, us against the city

Am

Please don t get offended when we don t answer your calls

C

G

And if you got a problem, come and find us, we can talk about it

What s good, young ho? You about it?

Am

Got a loft right now, you re excited

C

You excited?
