

When You Go Away
The Weepies

I've never made one of these before, but I haven't been able to find anything for this song on the internet, so I thought I'd do it! It's really simple, but I think it fits, hopefully it's ok!

D **G**
When you go away it's like you hide the sun
D **G**
I regret today things that we might have done

D **Em**
No relief from
gray skies

Em **G**
Where'd you take those blue eyes
D
What can I do?

(Repeat first pattern)

When you go away it's an unfinished song
Can't find words to say but I know where you belong

No relief from gray skies
Where'd you take those blue eyes
What can I do?

Em **D**
Take me with you this time won't you, won't you?
Em **D**
Don't make me miss you this time don't you, don't you
Em **G** **D**
We're so much better together don't you think?
G **D**
I do, I do

(Repeat first pattern)

Walk the street parade looking through everyone
But they don't have your face, oh look what I've become

No relief from gray skies
Where'd you take those blue eyes
What can I do?

D **G** **D**

When you go

away

And there you go! The end repeats the last line as well as bits of the chorus for a while, but that's pretty much the main ending, hope it helped!
