Everything will be alright by my side
There ain t a word in my mind to describe
You and I

There s a trail of tears and love no one can erase
Love has no end, take it to the grave
There s a place in the dark in the black where the demons are made
But I ain t your partner, I am your slave

Keep your head down for now, cut the light
Just til we get out of town, and I find
Find a place to hide

Til I find a place to hide
