

Doctor, Doctor  
The Who

{intro}

:::Abm : :::

{bass}

::-----:-----::

::.7-7----5-:7-7----5-.::

::.----5h7--:----5h7--.::

::-----:-----::

:Abm : : :

Doctor, there s something wrong with me

: : :Eb :

My health is not all that it used to be

:E : :Gb :

My heart is out of beat, I ve got chilblains on my feet

:Eb : :E : :Gb : :Abm : : : :

My eyesight s getting dimmer, I can t see

Doctor thanks for seeing me today, I m glad,

I ve got every sickness there is to be had

I had whooping cough last month

And today I ve got the mumps

And tomorrow I ll get chicken pox as well

:Ab : :Db :

Doctor, doctor, doctor, make me well

:Gb : :B :

I ve not got long to go now I can tell

:Ab : :Db z

Doctor, doctor, doctor, make me well

:Gb :E :Gb :E

I ve not got long to go I can tell

:Gb :E :Gb :E Gb:Abm : : : :

I ve not got long to go I can tell

Those pills I took had no effect at all

Just the other day I had a nasty fall

And I think I broke my jaw, when it hit the kitchen floor

And I m shrinking, last week I was five foot four

I ve been getting shivers lately, is it flu?

And though the bug is going round, what can I do?

And it s about to pick on me, I ve still got the other three

Do you think if I caught smallpox I d get through?

{Chorus}

Doctor, doctor, doctor, make me well

I ve not got long to go I can tell

Doctor, doctor, doctor, make me well  
I ve not got long to go I can tell  
I ve not got long to go I can tell

Do you think it s time that I made out my will?  
I ll leave everything to you to pay my bill  
Just how long is there to go;  
Please tell me, I want to know  
But on second thoughts, don t tell me, I m too ill
