Doctor, Doctor
The Who

{intro}
:::**Abm**   :   :::
{bass}
```
::----------:----------::
::.7-7----5-:7-7----5-.::
::.----5h7--:----5h7--.::
::----------:----------::
```

:Abm   :   :   :
 Doctor, there s something wrong with me
   :   :   :Eb   :
My health is not all that it used to be
   :E   :   :Gb   :
My heart is out of beat, I ve got chilblains on my feet
   :Eb   :   :E : :Gb : :Abm :   :   :   :
My eyesight s getting dimmer, I can t see

Doctor thanks for seeing me today, I m glad,
I ve got every sickness there is to be had
I had whooping cough last month
And today I ve got the mumps
And tomorrow I ll get chicken pox as well

:Ab   :   :Db   :
 Doctor, doctor, doctor, make me well
     :Gb   :   :B   :
I ve not got long to go now I can tell
:Ab   :   :Db   z
 Doctor, doctor, doctor, make me well
     :Gb   :E   :Gb   :E
I ve not got long to go I can tell
     :Gb   :E   :Gb :E   Gb:Abm   :   :   :   :
I ve not got long to go I can tell

Those pills I took had no effect at all
Just the other day I had a nasty fall
And I think I broke my jaw, when it hit the kitchen floor
And I m shrinking, last week I was five foot four

I ve been getting shivers lately, is it flu?
And though the bug is going round, what can I do?
And it s about to pick on me, I ve still got the other three
Do you think if I caught smallpox I d get through?

{Chorus}
Doctor, doctor, doctor, make me well
I ve not got long to go I can tell

Doctor, doctor, doctor, make me well
I ve not got long to go I can tell
I ve not got long to go I can tell

Do you think it s time that I made out my will?
I ll leave everything to you to pay my bill
Just how long is there to go;
Please tell me, I want to know
But on second thoughts, don t tell me, I m too ill
