4/4 | C            C C | G            | C        Csus4 | G            |

          C                    Csus4  
 I m a billion ages past you  
 C                    Csus4  
 A million years behind you too  
 Bb                    G  
 A thousand miles up in the air  
 Bb                    G        G6    G7  
 A trillion times I ve seen you there

C                    Csus4  
 Your hair is golden, mine is grey  
 C                    Csus4  
 You walk on grass, it turns to hay  
 Bb                    G  
 Your blood is blue and your eyes are red  
 Bb                    G        G6            G7  
 My body strains, but the nerves are dead

[Chorus 1]

          C                    Bb  
 I can t reach you, I ve strained my eyes  
 C                    Bb  
 I can t reach you, I ve split my sides  
 C        G/B        /    Am7 G6 /  
 I can t reach, tryin to get on you  
 Fadd9 C/E / Gsus4 F/D        C  
 See, feel or hear from you

| C    | G    | C    | G    |

The distances grow greater now  
 You drink champagne and past me plough  
 You fly your plane right over my head  
 You re so alive and I m nearly dead

[Chorus 2]

          C                    Bb  
 I can t reach you, with arms outstretched  
 C                    Bb  
 I can t reach you, I crane my neck  
 C        G/B        /    Am7 G6 /  
 I can t reach, tryin to get on you  
 Fadd9 C/E / Gsus4 F/D /    C  
 See, feel or hear from you
