

November

The Wilderness of Manitoba

The Song is here for reference:

Dm **Am** **C** **G**
All the loneliness we felt, oh the feeling?

Dm **Am** **C** **G**
Cast a burden overhead, across the ceiling

And the phantom always waits, for the midnight
Holds the dreamer in his hands, shadows eat light

Through the auburn streets of leaves, I m surrounded
Devils dance up in the trees, to keep me grounded

Desert sun and sweet fires burn, through the evening
As this train tears down the tracks, I believe him

She is waiting by the bay, through the clearing
Hide in wait to find her face... disappearing

Far across the burning land, I remember
Frozen in October sun, comes November
