**D** **C G D** (quick)

Iâ€™ve been headed down a wrong turn

**D**

Iâ€™ve been feelin that long burn

Everyday I missin you

To say Iâ€™m fine would be untrue

Oh baby wonâ€™t you come and play

On a midnight getaway

Got things to say to yo

Thatâ€™s why

Thatâ€™s why

**D**

iâ€™|gotta make it back to you

well were half way back from denver

it looks like decent weather that were runnin through

youâ€™|youâ€™re the first one I wanna see

in the middle of November weâ€™ll be back together down in tennesse

got your picture on my dashboard

got my foot down to the floor

three fifty underneath the hood

the cops think Iâ€™m up to no good

them lights are chasin me

soon Iâ€™ll lose them on a side street

just tryin to take them back

before I give myself a heart attack

iâ€™|gotta make it back to you

well were half way back from denver

it looks like decent weather that were runnin through

youâ€™|youâ€™re the first one I wanna see

in the middle of November weâ€™ll be back together down in tennesse

lifes got me on a fast track

there aint no time to look back

hear the voices callin me

soon Iâ€™ll be home and set free

iâ€™|gotta make it back to you

well were half way back from denver

it looks like decent weather that were runnin through

youâ€™|youâ€™re the first one I wanna see

in the middle of November weâ€™ll be back together down in tennesse

in the middle of November, weâ€™ll be back together down in tenesse

in the middle of November, weâ€™ll be back together down in tenesse
