

Our Perfect Disease
The Wombats

Not 100% accurate, but sounds good ;)

[Verse 1]

F#m
We don t admit it but we ve never seen eye to eye,
A **Bm**
my heartbeat s moaning and yours is making money
F#m
It s always a shock when old friends pass by,
A **Bm**
but with you it s no death in the family
F#m
Let s not talk about hate when there s hell to pay
A **Bm**
for my cowardness and your bad timing
F#m
We don t admit it but we ve never seen eye to eye,
A **Bm**
and it s not through a lack of trying

[Interlude]

F#m A Bm
F#m A Bm E

[Chorus]

D
It was the perfect disease we had,
A **C#**
something to argue and scream about
D
And you will see about contracting back,
A **C#**
and locking it somewhere it can t get ripped out
D
It was the perfect disease we had,
A **C#** **D**
and it hits us like a painful fact
Dm **F#m**
We all need someone to drive us mad

[Post chorus]

F#m **A** **Bm**
Ooh ooh ooh ooh oh, ooh ooh ooh ooh oh, wooh
F#m **A** **Bm**
Ooh ooh ooh ooh oh, ooh ooh ooh ooh oh, wooh

[Verse 2]

F#m

I didn't say it but you never were the honest type,

A **Bm**

you tried to fabricate a bed-time story

F#m

And now I miss those games we had of Jekyll and Hyde,

A **Bm**

ever since the day that we parted company

F#m

Don't send a helping hand I need a farrowing ram,

A **Bm**

to feed the reasons that I miss you so sorely

F#m

I didn't say it but we never saw eye to eye,

A **Bm**

now I can't bear it when equally is boring
