Logan Circle A New Hope The Wonder Years

[Verse 1] BmThey turned on the fountain today as I rode down 19th to Logan Circle I felt something in me change And I was thinking about how we all feel its been down The world s not that bad of a place G We just can t blame the seasons BmThe Blue Man Group won t cure depression Α But Arrested Development might if we let it And you should come by at eleven \mathbf{Bm} We re 533 on Manton I haven t thought that much about high school in ages And I can t pretend [Chorus] F#m I m afraid that we re wasting away We re all sleeping in circles Or talking shit in diners F#m And I ve been better but I m feeling okay Α I m not even sad anymore F#m Α I m just so tired most nights [Verse 2] BmWell I ve been drowning my sorrows in Lucky Charms and soy milk

For the record, I ${\tt m}$ not vegan, I just prefer the taste

```
D
                            Bm
We re getting pretzels with Fireworks at midnight
And I don t need maps, the sidewalk cracks this way
We wrote The Upsides in my basement
And pissed off all the neighbors
Jess and I barely slept when they had sex
This street has seen much worse
                 Bm
Than some fucking pop-punk band and
         Α
I used to hate it, but I miss it since I left
[Chorus]
                     F#m
I m afraid that we re wasting away
We re all sleeping in circles
Or talking shit in diners
                            F#m
And I ve been better but I m feeling okay
I m not even sad anymore
           Α
                F#m G
I m just so tired most nights
[Bridge]
                          F#m
                  Α
They turned on the fountain today at Logan Circle
                  Α
They turned on the fountain today
                            F#m
They turned on the fountain today at Logan Circle
I felt something in me...
[Outro]
                      F#m
I m afraid that we re wasting away
  Α
I m afraid
                        F#m
  G A
So I m afraid that we re wasting away
                     Α
```

We re all sleeping in circles or talking shit in diners ${\bf G} {\bf A} {\bf F\#m} {\bf G}$

And I ve been better but I ${\tt m}$ feeling okay

G A DAG

I m not even sad anymore $\,$
