

Stand Still Look Pretty The Wreckers

The other versions of this song sounded totally wrong to me, so i made my own chords. hope you ll like it:)

You can change the **G** in the verses to an **Em** if you think that sounds better.

Em C G C
I want to paint my face
Em C G C
And pretend that I am someone else
Em C G C
Sometimes I get so fed up
Em C G C
I don t even want to look at myself

D D C
But people have problems that are worse than mine
D D C
I don t want you to think I m complaining all the time
D D C
And I hate the way you look at me I have to say
Em C G C Em
I wish I could start over

[Chorus]

Am C G D
I am slowly falling apart
Am Am G D
I wish you d take a walk in my shoes for a start
Am C G D Am
You might think it s easy being me
C(Strum and hold)
You just stand still, look pretty

[Verse]

Sometimes I find myself shaking
In the middle of the night
And then it hits me and I can t
Even believe this is my life

But people have problems that are worse than mine
I don t want you to think I m complaining all the time
And I wish that everyone would go and shut their mouths
I m not strong enough to deal with it

[Chorusx2]
