

Knot In My Heart
The Zolas

Em C F# F
My friends are wilding
Am G C
How winter loves wear thin
Em C F# F
And cut to kindling
Am G C
When summer hits our skin

```

Em          C      F#      F
We re like a seedling

Am          G          C
Suck tears out of our veins

Em          C      F#      F
A forest fire knows

Am          G          C
Something will take its place

```

So why do I need

G C Em D
I wake up some days with a knot in my heart
G C Em D
Wait oh where, where were you?
G C Em D
It s hard and weird not to know how your day begins
G C Em D
Though I m lying next to someone new

Calm and collected

I m feeling nothing in the world can shake my bones

Em
These new distractions like growing grasses

Em C G
Hide the path between our homes

 So why do I need

 Something more
