Thea Gilmore Contessa

B **E**
Contessa, Contessa, oh please leave your hat by the door
B **E**
Well, I thought I told you you couldnâ€™t call round anymore
B **E**
And outside in the street and the rains turning tricks on the day
B **E**
Contessa, Iâ€™ve told you so why do you come anyway?

B **E**
Well, ten years ago by the motorway bridge with a smile
B **E**
And your red lacquer shoes, oh you lived inside me for a while
B **E**
I had an old cow bone that I used to draw hearts in the dust
B **E**
Contessa please tell me just what the hell happened to us

F#
â€™Cause Iâ€™ve gone
E **B**
Gone run that road
F#
Iâ€™ve gone
E **B**
Gone run that road
F# **E** **B**
Run that road home

B **E**
I was a scared little kid with a head full of hormones and holes
B **E**
With one eye on atonement and a body already grown old
B **E**
There you were with your secrets and your notebook of genuine lies
B **E**
Saying â€œgirl its your party but you sure as hell donâ€™t wanna cry, donâ€™t
wanna cry

F#
Iâ€™ve gone

E **B**
Gone run that road

F#
Iâ€™ve gone

E **B**
Gone run that road

F# **E** **B**
Run that road home

Yeah, run that road home

B **E**
So I was the black sheep, yeah, I was the lone cavalier

B **E**
But with a face like stone, oh Connie its lonely out here

B **E**
Iâ€™ve taken some pills and Iâ€™ve played with the hand I was dealt

B **E**
And you saved me that time but now Iâ€™ve learned to save myself

F#
And Iâ€™ve gone

E **B**
Gone run that road

F#
Iâ€™ve gone

E **B**
Gone run that road

Run that road home

Oh, run that road home

Yeah, run that, run that, rung that, run that, road home

Yeah, run that road home
